React Js Developer, React Native Developer, Fullstack (React Js, Node js)

Despre mine

Мне нравится проводить свой досуг по-разному. Я отдаю предпочтение чтению книг, новостей и различной виды статей. Что

касается занятий спортом, я люблю гулять и плавать. Я также

активно провожу свободное время игра в теннис или волейбол и

езда на велосипеде. Кроме того, мне нравятся силовые тренировки и

растяжка. Я стараюсь уделять время к упражнениям для улучшения

моего английского.

Experiența profesională

React JS, React Native Developer · Otherweb, Delaware, USA

Ianuarie 2024 - Prezent · 1 an 2 luni

<https://otherweb.com/>

Development of news website and otherweb application. Includes authorization by token, profile and its editing, editing filter settings for preferred news. List of news with scrolling pagination, custom GPT chat with generation of responses (including links) upon news request. A separate news page allows you to go to a separate search based on meta results. Highlights by clicking on the Summery link with the ability to search for a query of interest and much more. SEO focused product. Github was used for CI/CD, ClicpUp was used for working with tasks. For Slack and Telegram communication. Agile methodology.

<https://oneest.com/>

Creating a user interface for both mobile and desktop. SEO focused product. Additionally, the work of the SEO manager was performed. Github was used for commits, Active Collab was used for working with tasks. For Slack communication. I started writing the product on my own as a react developer, and I continue successfully on my own. A fundamental difference from the previous place of work, since they worked according to the MVP principle, most of the functionality is immediately uploaded to production with minimal testing. There are pros and cons. This is the nature of the application. Creating your own server to use the smtp service and CRUD technology with mongo-db on Node js to edit the landing page.

stack web: next js, tailwind, react js, centrifuge js, react swiper, react hooks-form ant others

stack node js server: node js, express, mongoose, minio and other

stack mobile: react native, redux toolkit, react-native-navigation, react-native-webview, centrifuge js, react-native-getstore-hendler, react-native-reanimated, react-push-notification and other

link to mobile app: <https://jokeristhebest.live/get-application>

Services for watching sports channels and live events. Has the ability to authorize and expanded access, allowing you to edit content:

tazz tv service link: <https://tazz.tv/> zuzz tv service link: <https://zuzz.tv/>

Streaming services divided by domain for various sports. With statistics of past matches, live events and the ability to watch live events:
